Summary

I am a **Full-stack Web Developer** specialized in **TypeScript** (React, Vue) and **.NET**. I have experience developing user-friendly websites and applications, ranging from simple **portfolios** to comprehensive **ERP** systems.

Experience

Wavenet

2023 - Present

Analyst Developer .NET

Leuze-en-Hainaut

<https://www.wavenet.be/>

As a .NET analyst developer at Wavenet, a consulting firm specializing in the development of web solutions, among other things, my role is to develop high-quality, scalable and robust APIs and front-end interfaces based on customer requirements.

Société Wallone du Crédit Social

2022 - 2023

Frontend Web Developer

Charleroi

<https://www.swcs.be/>

SWCS (Société Wallonne du Crédit Social) is a public service offering loan solutions for buying, renovating or renting a home in Wallonia. My team was in charge of implementing solutions to help the business teams.

Education

IFAPME

2021 - 2023

<https://www.ifapme.be/>

At IFAPME, I developed a strong foundation in web development, mastering HTML, CSS, and JavaScript, along with advanced skills in PHP, Angular, and React. This comprehensive training equipped me to efficiently tackle both front-end and back-end development projects.
